

BIM Learning Path & Next Steps

LUA BIM LABS Starter - Track 8 Quick Reference | Track completion card - Day 60

BIM Career Level Progression

Level	Title	Core Skills	Typical Timeframe
Level 1	Starter / Beginner	BIM concepts, LOD, Revit MEP	0-6 months
Level 2	Modeler	Modeling quality, family management,	6-18 months
Level 3	Coordinator	System grouping, coordination	18 months - 3 years
Level 4	BIM Lead	BEP authoring, QA/QC process	3-6 years
Level 5	Automation / BIM Manager	Ownership, coding, Python, Revit API, process automation, fine-tune standard setting	5+ years

Tools by Level

Level	Primary Tools
Level 1 (Starter)	Revit MEP (basics), Navisworks Freedom (viewer), PDF viewer for drawings
Level 2 (Modeler)	Revit MEP (advanced), Navisworks Manage, BIM 360 / ACC Files
Level 3 (Coordinator)	Revit MEP, Navisworks Manage, BIM 360 / ACC Issues, Solibri / BIM Collab
Level 4 (Lead)	All Level 3 tools + Dynamo (basics), Excel for reporting, presentation tools
Level 5 (Automation)	Dynamo, Python, Revit API, Power BI / data dashboards, CI/CD pipelines for BIM

Monthly Learning Habit Structure

- Daily (30 minutes)
- 10 min: Review one concept - lesson, standard document, or project example
 - 15 min: Practice one task in Revit, Navisworks, or Dynamo
 - 5 min: Write one observation, question, or lesson learned

- Weekly
- Monday-Friday: Daily 30-minute practice block
 - Saturday: Review the week's topics - consolidate, do not add new content
 - Sunday: Plan next week's practice topics

- Monthly
- Complete one new skill from the next level's skill list
 - Review one BIM standard or project document (BEP, LOD Spec, IFC guide)
 - Update your personal BIM portfolio with one new item

Personal Tutor - Upgrade Description

LUA BIM LABS Personal Tutor is the next subscription tier for learners who have completed the Starter track and want direct, project-specific guidance.

- What Personal Tutor adds:
- One-on-one Telegram Q&A with a BIM mentor - real answers to your project questions
 - Model and drawing review (discipline-specific feedback on your actual work)
 - Weekly progress check-in with learning targets set by the tutor
 - Career strategy guidance - resume review, interview preparation, portfolio feedback

- Access to advanced discipline deep-dive content beyond Starter scope

Who it is for:

- Starter graduates who are in their first BIM role and have real project questions
- Learners preparing for a BIM job interview with work to review
- Professionals shifting disciplines (e.g., HVAC designer moving to BIM coordination)

How to upgrade:

Contact LUA BIM LABS via Telegram reply to any lesson message.
